About Me

As a dedicated Software Engineering student at Sabaragamuwa University of Sri Lanka, I'm currently in my 2nd year of BSc. Hons studies, building a strong foundation in modern software development practices and technologies.

My expertise lies in the Java technology stack, where I've developed proficiency in creating robust, scalable applications. I'm passionate about writing clean, efficient code and believe in the power of well-architected solutions to solve complex business problems.

Beyond coding, I'm committed to community service and precision in all my endeavors. My experience as a volunteer teacher and data collector for government projects has taught me the importance of attention to detail, patience, and clear communication – skills that directly translate to better software development.

Academic Excellence
2nd Year BSc. Hons in Software Engineering at Sabaragamuwa University of Sri Lanka

Community Service
Volunteer teacher, sharing knowledge and helping others grow

Professional Experience
Data collector for government office, ensuring accuracy and reliability

Skils & Expertise

Comprehensive technical skills across the full development stack, with a focus on Java technologies and modern web development.

Front-End development

HTML5	90%
CSS3	85%
React	75%
JavaScipt (ES6+)	80%

Back-End Development

Note.js

Express.js

REST APIs

Database & ORM

MySQL	85%
MongoDB	80%
SQL	88%

Tools & DevOps

Git	85%
GitHUb	80%
AWS	60%

Core Technologies

Java

Spring

React

MySQL

What I Do

Creating responsive, modern, and visually appealing websites and web applications with a focus on clean code and optimal user experience from front-end to back-end.

Ready to Build Something Amazing?

I combine technical expertise with creative problem-solving to deliver solutions that not only meet your requirements but exceed your expectations.

100%
Clean Code
